TURKEY'S WARSHIPS AND ARMIES OF SERBIA AND BULGARIA PREPARE FOR

ENDS LIFE AT TRIVIAL QUARREL

EFFORT TO DASH POISON FROM HER HAND FAILS

Woman Takes Poison at Midnight and Dies This Morning With Man With Whom She Quarreled at Bedside.

Despondent because of a quarrel with her consort, Stella Ruggles, a handsome woman, twenty-three years of age, swallowed strychnine about midnight with suicidal intent, at her room, 535 City street. She died at 10 o'clock this morning.

James Tyler, a fruit peddler, with whom she was living, was present in the room when she took the poison. He rushed her to the Receiving hospital, where Steward Berchert and Matron Hughes attended the woman. It was thought that she was on a fair way to recovery, but this morning her heart failed. Tyler sat with her all night.

TRIED TO SAVE HER.

According to the story he told the police, Tyler and the woman had a quarrel over a trivial matter last night. Tyler went out and returned shortly after, just in time to see Miss Ruggles pour a white powder into a glass of water and swallow it. He tried to dash the glass from her hand, but was too late.

Miss Ruggles is said to belong to a good family in Berkeley. She and Tyler had been living together for several years. The man has a wife, with whom he has not lived for eight years.

PALACE OF KING IS STORMED

SERBIAN PATRIOTS ARE DEMANDING ACTION

King Peter Forced to Call Out Troops to Quell Mob of His Own People Who Cry Loudly for War.

BELGRADE, Oct. 8.—The clamor for war with Austro-Hungary because of the occupation of Bosnia and Herzegovina is growing here hourly and scenes of wild excitement are witnessed on the streets of Belgrade.

This morning a mob of demonstrators forced its way to the precincts of the palace and demanded to see King Peter. The crowd was so threatening that troops and gendarmes finally had to be called out.

They surrounded the palace and had to charge several times before the war-frenzied patriots would disperse.

PATRIOTS PROTEST.

The patriots are very much dissatisfied with the tone of the protests of Serbia against the occupation of Bosnia and Herzegovina. They declare it lacks vigor and does not represent the feelings of the nation, which would rather go to war than acquiesce in this act of Austria-Hungary. There is a steady flow of telegrams from the interior assuring the government of support in the shape of money, men and volunteers in the event of hostilities.

TROOPS HOLD TUNNEL.

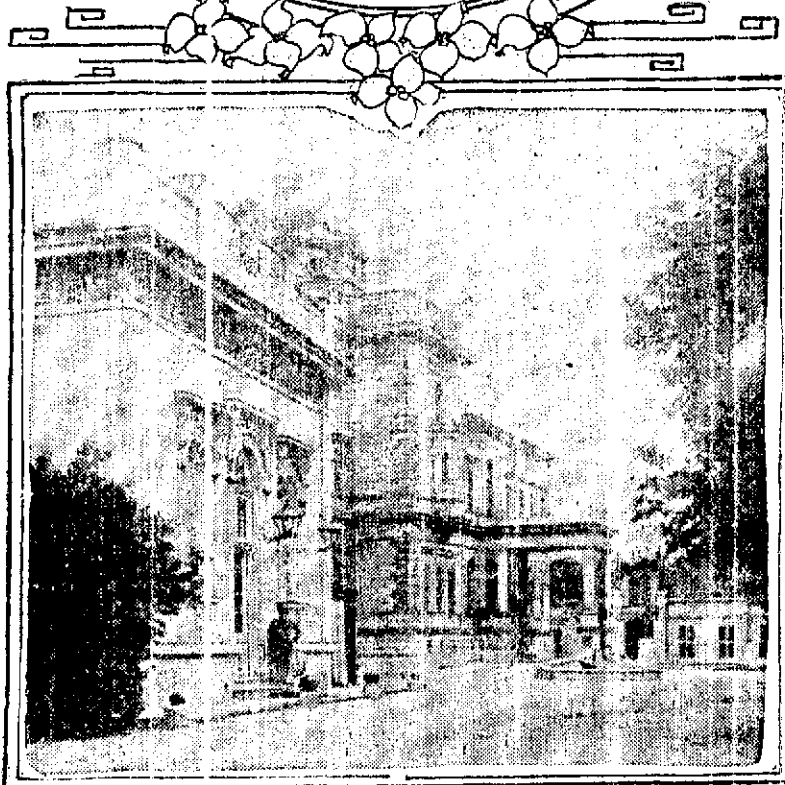

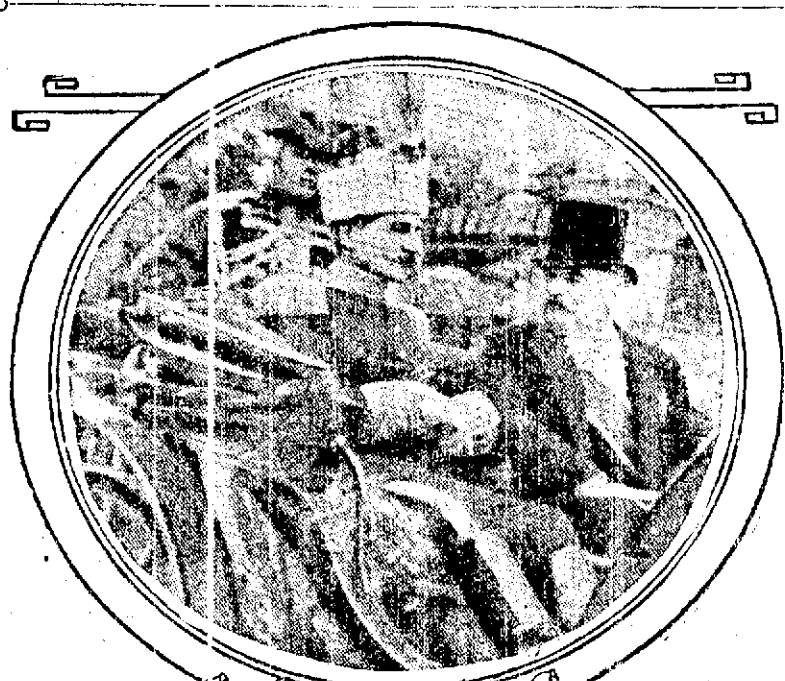

VIENNA, Oct. 8.—INFORMATION HAS REACHED THE GOVERNMENT THAT SERBIA IS PLANNING THE ORGANIZATION OF A GUERRILLA WARFARE IN BOSNIA AND HERZEGOVINA. IT IS PURPOSED TO FLOOD THESE TWO PROVINCES WITH ARMED BANDS. AUSTRIA IS TAKING PRECAUTIONARY STEPS TO PROTECT HER FRONTIER. THE RAILROAD TUNNEL NEAR THE FORTRESS OF PETERVARDEIN, IN HUNGARY, IS NOW HELD BY TROOPS.

The Fremdenblatt, the mouthpiece of the foreign office, declares today that the proposed conference of the powers to discuss the Balkan situation will not meet with refusal from Austria-Hungary in principle, although whether or not the invitation will be accepted depends upon the details of the proclamation.

M. K. T. Road Declares Dividend

PARSONS, Kan., Oct. 8.—The board of directors of the Missouri, Kansas and Texas Railroad Company at a special meeting here today declared the regular semi-annual dividend of two per cent on the preferred stock.

King Peter of Serbia and one of his officials. His tempestuous reign, which began in blood, has prospects of ending bloody.

Palace of King Peter in Serbia. It was here that Alexander and Draga were assassinated. Today an angry mob of his people invaded this palace and soldiers had to disperse them. The mob demanded that war be declared on Austro-Hungary.

FERDINAND CONFERS WITH HEAD OF ARMY

PARIS, Oct. 8.—The Sofia correspondent of the Temps says in a dispatch that King Ferdinand has summoned the commander-in-chief of the Bulgarian army in conference.

The Bulgarian government considers that the last communication received from the Grand Vizier of Turkey is "insolent." The situation is very strained, the correspondent says, and great excitement prevails in Sofia.

FOR LOSS OF APPETITE Take Hornsford's Acid Phosphate. It is especially recommended for restoration of appetite, strength and vitality.

TURKS SEND CRUISERS TO ISLE OF SAMOS

CONSTANTINOPLE, Oct. 3. The proclamation of the Union of the island of Crete with Greece may not be accepted by Turkey without retaliation. It is reported here today that Turkey has ordered four warships which are at present at Smyrna to proceed to the island of Samos. These vessels are the cruiser Medjidieh and three torpedo boats. Samos is a Greek island and pays an annual tribute to Turkey.

The Greek minister to Turkey today presented to the Porte a communication.

DEAD WOMAN MRS. A. BEST

The unknown woman whose body was found in the bay was identified late this afternoon as Mrs. Anna Best, wife of G. Best, a retired San Francisco restaurant keeper, living at 148 Woodward street in that city.

Maskette Won Tenth Matron

BELMONT PARK, N. Y., Oct. 8.—The tenth Matron, a stake affair for 2-year-old fillies, over the six-furlong course, was decided this afternoon, and contrary to subsequent events, it attracted only two starters. In consequence, the race lacked the usual interest and developed a very tame contest. Maskette, a shifty filly with considerable pretense to class, always had the purse and affliction at her mercy. Time, 1:12 4-5.

Taft Hurried So As to Register

CINCINNATI, Oct. 8.—Judge Wm. H. Taft reached home this morning and went at once to the home of Charles P. Taft, where he is staying. His desire to register today, his last opportunity, hastened his departure from Chicago at 1 o'clock this morning. Next Monday the candidate will again plunge into the campaign on a continuous itinerary which will keep him going until the day before election.

MISS ALICE JORDAN'S DEATH ACCIDENTAL

SAN FRANCISCO, Oct. 8.—The coroner's jury at 1 o'clock this afternoon returned a verdict of accidental death in the case of Miss Alice Jordan, the Oakland school teacher, who walked into the bay from the

THOUSANDS WITNESS THE BIG N. Y.-CHICAGO GAME

Fans Go Wild Over Most Remarkable Game in History of Baseball

FINAL SCORE: NEW YORK 251 CHICAGO 480

NEW YORK, Oct. 8.—The game which was played at the Polo Grounds on Sunday afternoon, Sept. 28, was the most remarkable game in the history of baseball. The Chicago team, which had been defeated by the New York team in the previous game, won this game by a score of 251 to 480.

THIRILLING SCENES. No last act of any drama ever held in expectancy and thrill such a waiting audience as this which today follows the play to the curtain fall of the pennant season of 1908.

Hundreds of thousands throughout the country are watching bulletin boards. In Chicago almost instantaneously flashed over the wire play by play, on a mammoth screen, the progress of the game. In the little village where the enterprising weekly records on an impromptu poster the results, half inning by half inning, were wired from the press box here.

Tragedy or glorifying comedy, it will end finally according to one's sympathies with the actors. Fate has certainly set the stage and developed the climactic scenes with a master conception of dramatic propriety and essentials. And now, stadium like, the throngs are bunched high here on every side and now breathless hush, now wildest cheering, indicate the tension which has eliminated life's ordinary routine and concentrated attention upon championship baseball.

DEAFENING CHEERS. At 1 o'clock Doyle, who has been laid up for some time, ran out onto the diamond and was greeted with great applause. Both teams began warming up. The gates to the diamond had been closed and the Polo Grounds practically sealed against further entrance. At 1:15 p. m. the gates to the field were opened and crowds rushed for vantage places. Soon the police within the enclosure had their hands full.

Outside the grounds pandemonium reigned, thousands clamoring for admittance which was denied them. The police cleared part of the diamond in front of the grand stand, using their clubs in some instances. Manager Chance, crossing the field to join his team, was greeted with fears and hisses from the bleachers, while McGraw, strolling from the club house across to the benches, was given tremendous applause. Matthews arrived on the field at 1:30 p. m.

(Continued on Page 3.)

THEATER AT AUCTION

Friday, October 9, at 10 a. m., at 1000 Broadway. Open chairs, electric signs, switch boards, scenery, 2 moving picture machines, etc. of the Fifth street Theater, to be sold.

MEYSEL & MEYSEL, Auctioneers.

WEATHER FORECAST. SAN FRANCISCO, Oct. 8.—San Francisco and vicinity: Fair to clear; cloudy tonight and Friday; possibly showers Friday; light south wind. Sacramento Valley: Fair to night; cloudy Friday; light south wind. San Joaquin Valley: Fair to night; cloudy Friday; light north wind. Southern California: Fair to night and Friday; light north wind.

MARVELS WROUGHT IN PLAIN SIGHT

THE GREAT FER-DON MYSTIFIES OAKLAND AUDIENCE

Thousands Attend Free Concerts and Free Demonstrations Nightly at 19th and Broadway. People Gap With Astonishment at Startling Cures Wrought Before Their Very Eyes. Miracles of Healing Cause Much Gossip and Talk All Over City.

Thousands of people crowded the free grounds last night at 19th and Broadway, to see and hear the Great Ferdon and his European medical experts and his European medical experts. The audience was delighted at the start of the singing and funny jokes rendered by the dark-skinned comedians. The dancing and juggling by the Japanese of Japan were the best ever seen in Oakland. The majority of the crowd came to see and hear the Great Ferdon, the man who has caused the talk of Europe and America to talk of his power of his European medical experts and his European medical experts. The crowd was made up of all classes of people, and the Great Ferdon was the center of attraction. The Great Ferdon was the center of attraction. The Great Ferdon was the center of attraction.

PARFOR TEN YEARS.
Mrs. Parmeter, living at 1223 1/2 West 12th street, Berkeley, came upon the Great Ferdon last night. She had been blind for ten years and was told that she would never see again. But she was cured by the Great Ferdon. She was cured by the Great Ferdon. She was cured by the Great Ferdon.

PARALYZED BOY BENEFITED.
Little Jimmie, of 710 West 12th street, Oakland, was paralyzed since birth. He was unable to walk and was told that he would never walk again. But he was cured by the Great Ferdon. He was cured by the Great Ferdon. He was cured by the Great Ferdon.

HEW HIS CRUTCHES AWAY.
Also a newsboy who for seven years had sold matches and newspapers on the streets of Oakland each day plodding his way along on crutches. His illness was a joint disease. After being treated by the Great Ferdon, he was cured. He was cured by the Great Ferdon. He was cured by the Great Ferdon.

BREAKS WORLD'S TWO-YEAR RECORD

KINGSTON, Ky., Oct. 8.—Czarina, the Futurity for two-year-olds to be run at Lexington, Ky., on Oct. 10, was won by Fanny Lawson, second, Atlantic, and Robert C. fourth. Time for winner, 2:12 1/2, 2:13 1/2, 2:12 1/2, established a new world's record for two-year-olds.

JUDGE OGDEN'S WIFE TELLS OF TALK WITH MRS. MARTIN

Policeman Identifies the Fuse Used to Blow Up Home of Judge

Mrs. Laura I. Ogden followed her husband, Judge Ogden, on the witness stand in the Isabella Martin dynamiting case today. She testified as to a conversation she had with Mrs. Martin when the latter called at her house.

Mrs. Martin began to talk about the case she then had pending in Judge Ogden's court against the Westchester Fire Insurance company. Mrs. Ogden told her that she could not discuss the matter, and to change the conversation, began speaking about "Baby John," asking, among other things, if

the boy went to school. Mrs. Martin growl disapproved. Mrs. Ogden said, and left. Shortly after, Mrs. Ogden testified, she received a letter from Mrs. Martin, telling her to look after her own children and not to interfere with the children of others.

Policeman H. H. Caldwell, who was acting detective at the time of the explosion, told of finding about fifty feet of fuse just after he arrived at the house to investigate. The fuse passed over a fence and then ran along it. Caldwell identified the fuse, which has been placed in evidence.

GRAND JURY AGAIN TAKES UP INVESTIGATION OF SCHOOLS

New County Purchasing Agent and County Statistician Also Before the Body.

Investigation of the alleged faulty construction of the Washington and Lincoln schools was resumed by the grand jury, which interrogated at length H. Schwab, former inspector of construction for the Oakland Board of Education, as to the materials that were put into the school building.

Superintendent of Schools McElroy was summoned to appear as a witness today, but he was not called, as the grand jury did not get through in time this morning to question him. No afternoon session is being held.

INSTRUCT NEW AGENT.
The grand jury devoted part of its session today to giving instructions to D. McLaren, newly-appointed purchasing agent for the county. McLaren was told what the intention of the grand jury was when that body made its partial report recommending to the Board of Supervisors that it employ a purchasing agent. He was told to keep a close watch on the supplies that were needed by the county officials.

and make regular reports as to what he ordered bought for them.

COUNTY STATISTICS.
County Statistician H. E. Magill was also before the grand jury. When Magill was first employed this year he was told that he could not spend more than \$5000. Most of this money has already been expended, as Magill found it necessary to employ many clerks to get statistics from the manufacturers and farmers of the county. He declared that it is impossible for him to do his work properly without additional funds. The grand jury asked him if he could not get the necessary data from the manufacturers and farmers of the county by means of postal cards. Magill replied that this was impossible, as many held back information, and could be induced to impart any only after personal solicitation and after reasoning with them. A great many manufacturers, especially in the habit of holding back information because they fear that it will be used for the purpose of fixing their assessments.

The grand jury will hold another session next Wednesday.

3 CHILDREN BURNED TO DEATH

BUFFALO, N. Y., Oct. 7.—Three girls are reported to have been burned to death and four firemen were seriously hurt in a fire which destroyed the feed store of A. Nowak and Son here this afternoon. It is said that the children were in the store and no

trace of them can be found. The fire burned rapidly and the firemen had a hard time fighting it. As soon as the fire was extinguished, the firemen and police started a search of the ruins for the bodies of the children. It is estimated that the loss is \$75,000.

LABOR DENOUNCES DECISION

SAN JOSE, Oct. 8.—Although the Federated Trades convention this forenoon adopted a number of minor resolutions, the chief matter before that body was the report of the committee on resolutions condemning the United States Supreme Court for upholding the Sherman anti-trust law to trades and labor unions; criticizing Congress for declining to remedy that action; and the Republican party for rejecting the anti-injunction plank, declaring that side issues in the present Presidential campaign do not count, and calling upon laboring men

to vote the Democratic ticket. Although a number of eloquent speeches were made against the last clause were made a motion to adopt the minority report, which declared the course was overwhelmingly defeated, and it is evident that the report in full will be adopted this afternoon.

ROBBERS LINE UP 20 AND TAKE VALUABLES

VALLEY CITY, N. D., Oct. 7.—Two masked men entered the post room of J. Strass at Dazey, early today and lined the twenty occupants of the place against the wall. The robbers then took the watches and jewelry and about \$20 in cash from their victims.

SPRECKELS HURT BY RULING

JUDGE HUNT ONCE
DECIDED AGAINST HIM

Why the Good Government League, Under Its Splenetic Dictator, Refused Indorsement to Veteran Jurist.

SAN FRANCISCO, Oct. 8.—There has been a great deal of dissatisfaction expressed by the friends of Judge Hunt, because of the action taken by the Spreckels Good Government Club in failing to endorse the nomination of Judge Hunt for re-election to the Superior bench, on which he has served for the past twenty-five years. The league gave the assurance that the greatest attention would be given to the matter of selecting men for the judicial positions who were true and capable and it was thought accordingly that Judge Hunt's long service on the bench would secure his indorsement.

FIRST SUPPOSITION.
It was at first supposed that the refusal was occasioned by Spreckels' disappointment over the failure last August of the Lincoln-Roosevelt movement in this city, which has since caused Spreckels to assume the dictatorship of the league.

This appeared the only possible explanation until a second possible explanation of the action was afforded when some influential friends of Judge Hunt mentioned a ruling in which the Judge decided adversely to Rudolph Spreckels in an important case last March.

SPRECKELS HURT BY DECISION.
The case was one in which the plaintiff sued to recover \$50,000 damages for personal injuries sustained by falling through an excavation in front of a building on California and Webb streets. Rudolph Spreckels, as owner of the premises, was made defendant with the Board of Public Works, under whose direction the excavating was done, to the injured person's complaint. Spreckels sought to evade responsibility and demurred to the complaint. In overruling the demurrer Judge Hunt decided that the question whether he was or was not responsible must be left to a jury. Judge Hunt's friends are insisting that the case had something to do with Rudolph Spreckels' objection to his re-election.

LOEB MAY LEAVE U. C.

FAMOUS SCIENTIST
MAY GO TO BERLIN

Has Been Offered the Chair of Physiology in German University and May Sever His Connections With Berkeley.

SAN FRANCISCO, Oct. 8.—Jacques Loeb, professor of physiology at the University of California, has been offered the position of professor of physiology at the University of Berlin.

Geheimrat Dr. Engelmann, who now occupies the chair at the University of Berlin, has declared his intention of resigning and the faculty at Berlin is anxious to call Dr. Loeb among his members.

Dr. Zuntz, a distinguished member of the University of Berlin, is in the city, having returned from a scientific investigation to the Orient. He has been commissioned by the directors of the Berlin university to urge Dr. Loeb to accept the chair of physiology in Berlin.

Dr. Loeb's affiliation with the State University several years ago gave the institution a high standing among the academic centers of the world, for such investigation of the scientist added to the knowledge of men and was published throughout the entire world.

OLD DEFENDER OF CUP COMESTO GRIEF

NEW YORK, Oct. 8.—America's old cup defender, the Mayflower, came to grief in a hurricane last Saturday, 30 miles off the coast of New York, on her way with her crew of Harvard students to search for a fabled golden mine on the coast of Japan, with rich treasure in her hold. The vessel was brought to land by the steamer Advance arrived from the south.

In the company organized for the Mayflower's expedition were Gordon Brown, captain of the Yale football eleven of 1900 and Roger Darby, C. Harrison, Gus Smith, L. Corbett, Harry Henshaw, and Mutsukata, said to be the son of a former high official of the Japanese government.

HADGI TAHAR ENTERS PLEA OF NOT GUILTY

The demurrer of Hadgi Tahar, who is accused of compounding a felony, has been overruled by Judge Wingo. Tahar then pleaded not guilty and his trial was set for November 11. The charges against him is that he acted as intermediary in inducing Mary Stanley and her son, Lee Stanley, to conceal Mrs. Stanley's disfigurement, Harry Henshaw, so that he could not give testimony against G. Condon, who was charged with wronging the girl. Henshaw was recently convicted of compounding this felony while the jury disagreed as to the guilt of his mother.

15c Ladies' Handkerchiefs 10c
Special Friday

An excellent lot of sheer lawn handkerchiefs; hemstitched and embroidered, em-scalloped edges and many other desirable patterns; a good opportunity to choose half dozen at a saving price.

Policeman Takes Brother to Jail

(Special to The Tribune).
SAN FRANCISCO, Oct. 8.—Policeman Stephen Bernal, attached to the central station, arrested his brother, Albert Bernal, and booked him at the city prison at 3:30 p. m. on a charge of carrying concealed weapons. According to Stephen's statement, the former did not like the way Albert had been acting lately, and then the police officer met his brother in front of the hall of justice he upbraided him severely. Albert resented his order and attempted to draw his revolver, struggle ensued, and the officer, having a law on his side, clapped the handcuffs on his brother and proceeded to lock him up.

Foley's Honey and Tar cures coughs quickly, strengthens the lungs and soothes the throat. Get the genuine in a yellow package. Sold by all druggists.

CARPENTERS WALK OUT FROM LABORS

Forty carpenters working on the new Hart and Remond building at Fourteenth and Clay streets were called out Tuesday. Contractor Frank Wilson refused to accede to their demands for a regular wage of \$5 a day. Thirty more carpenters employed by Wilson later refused to work and walked out. This had up work on the addition to the Barbary Coast Hotel at Thirteenth street and Broadway and the construction of the Collins Brothers' drug store at Fourteenth and Washington streets. The Building Trades Council adopted resolutions endorsing the striking carpenters who are holding out for a \$5 a day wage. As nearly two-thirds of the union carpenters in Alameda county are now receiving the full scale it is hardly probable that the strike will spread beyond Oakland. The action of the local carpenters in walking out yesterday had been expected for some time, and it was the direct consequence of a meeting of the Joint Dis-

YOUNG PLEADS NOT GUILTY OF MURDER

(Special to The Tribune).
SAN FRANCISCO, Oct. 7.—James C. Young, who, together with his twin brother, Thomas O. Young, is accused of the murder of William H. Heins on the Barbary Coast last July, pleaded not guilty to the charge against him in Judge Lawlor's court this morning and the case was put over until Saturday to be set for trial.

Attorney E. Lester, representing the defendant, this morning interposed a demurrer to the information filed against Young by the district attorney, but it was disallowed by the court and the plea taken over the objection of counsel.

Two Nights

—the last two nights.

How you did wish that Moran's did not close at 6 o'clock, so that you could get that Overcoat so badly needed.

Get it right away.

We've the smartest, chestiest, nattiest Overcoats that ever were designed.

Moran's Overcoats are as far ahead of the ordinary Overcoats as the "Directoire" gown is ahead of the house wrapper.

TURKS SEND CRUISERS

(Continued From Page 1.)

tion from his government announcing that the people of Crete had spontaneously proclaimed the union of that island with Greece. He assured the Turkish government that Greece was not responsible for the proceedings of the Cretans and expressed the hope that this action would not disturb the present friendly relations between the two powers. It is feared here that this hope can hardly be realized.

DECLARE INDEPENDENCE.

BERLIN, Oct. 8.—It is reported here that the Arnauts of Albania have declared their independence of Turkey. The rumor lacks confirmation.

NO RECOGNIZE CRETE.

LONDON, Oct. 8.—M. Romanos, the Greek minister to Great Britain, was officially informed this morning that the people of Crete had requested union with Greece. He said that his government would accept the proclamation and give effect to the wishes of the Cretans. It could not be supposed, he said, if the powers recognized the independence of Bulgaria and Herzegovina, that they would deny their support to the aspirations of the people of Crete.

JAILED FOR THEFT.

Joseph Penz, who was arrested with Ramon Rozales for the theft of a pair of trousers from Heenan's store and who is now serving a sixty days' sentence for stealing a pair of shoes from Jacob Leon, was sentenced by Judge Tappan to ninety-eight days in jail for the theft of the trousers. Rozales was discharged, as he could not be connected with the case.

BARTENDER BEHIND BARS.

Robert Willis, a bartender in a colored club in Market street, is behind the bar in earnest this morning, having been sentenced to fifty days in the city prison by Judge Tappan for selling liquor without a license.

COFFEE

Don't be afraid to say so, if you don't like Schilling's Best.

TALKS

ON

TEETH

BY THE DEX DENTAL CO., Inc.

FALSE PLATES

Are you having trouble with

a partial plate?

Can't get properly with it?

Do you know it is possible

through the wonderful discovery

of the DEX DENTAL CO., Inc.

to get a put teeth in the

mouth without plates?

This new discovery is one of

the greatest achievements ever

known in the science of dentistry.

Heretofore the dentist has

demanded an anchorage in the

shape of a suction plate or a

"bridge" before he could supply

false teeth.

We ask for two or more

teeth in either jaw, no matter

whether light or loose. If

loose we can cure the cause.

With these two to work

with we get well new teeth

clear up to the ends of the

gums, upper and lower, big,

solid, natural looking teeth,

which will enable you to eat

anything in comfort.

The proof of this wonderful

method is not what our den-

tists say about it, but rather

what people say who have it in

their mouths. The DEX DENTAL

Company knows how it feels and

how it looks. If you will be

convinced come in and talk it

over with us.

San Francisco, April 23, 1908.

DEX DENTAL CO., Inc.

Pacific Building, City.

Gentlemen, we heartily state to any

one that the Alveolar teeth

which we inserted in your mouth

are much more natural looking

than the false teeth which you

took out. I am de-

lighted with my new teeth,

which in fit and will take pleasure

in sending anyone to you

who is in need of high class

dental work.

Very truly yours,

A. KIMPEL,

San Francisco, City.

This work is not what our den-

tists say about it, but rather

what people say who have it in

their mouths. The DEX DENTAL

Company knows how it feels and

how it looks. If you will be

convinced come in and talk it

over with us.

The Muck-Raker and Demagogue Have Had Their Day.

Everybody who has not been over-ready to crucify a corporation, and especially the great railroad corporation of California, has in recent times invited and generally received consideration as a retained defender of interests willfully acting against the public well-being. Some corporations in times past have been so inconsiderate as to be in part responsible for this condition; but the demagogue has found his opportunity in connection with the situation, and must receive the larger credit for the public attitude.

President Roosevelt has levelled his lance more than once against corporations, but he has always been particular to have it understood that he did not challenge because the antagonist was a corporation per se, but because it disregarded the law. He has seen the popular misconception of his attitude, in the general baiting of corporations through popular clamor, and has protested against it; but the demagogue is still heard in the land, and the malignant journal, controlled by the envious capitalist, continues its incitement of the public, with too much effect.

At yesterday's session of the Trans-Mississippi Congress, Manager Stubbs of the Southern Pacific Company declared that it has come to the pass where railroads need protection as well as regulation. The company which he represents, he said, had projected vast improvements, work upon which awaited the restoration of financial confidence. Owing to the clamor, the public has become timid about investing in railroad securities. There will still be those to scoff at this idea, but the sensible man, who understands that no enterprise can forever withstand being under the public ban, will realize that there is much in it. Muck-raking by the magazines and demagogues by small politicians with sore heads have so inflamed the public that everything proposed in the name of a corporation is instantly denounced, without consideration as to whether it is reasonable or not. The most striking example of this is the baiting of the United Railroads in San Francisco. Nothing is so desirable to the welfare of that city as a street railway system of the most comprehensive character, yet all efforts to extend the present system are hampered and opposed by a city government under control of a millionaire who has been trying to wreck the corporation, and whose vindictiveness has been vehemently supported by a newspaper owned by him.

The Southern Pacific Company may not be wholly blameless for the hostility that now confronts it, but neither is it deserving of the entire odium that reckless prints have put upon it. The past is past. What must now be desirable to all fair-minded people is a course of action that will protect the people in their rights, but that will not deny corporations those privileges that are reasonable and that will tend so much to the benefit of the public through improved service and facilities as to the corporation seeking the same. In short, the people must stop taking their cue from the demagogues and muck-rakers, and do their own thinking, always with the desire to come to a just conclusion.

In the end it will be found that fairness must prevail. If we exact square dealing and obedience to the spirit of the law from a corporation we must be willing to accord the same.

President Roosevelt, whose name some very unfair and malignant persons out this way adopted for a political purpose, sums up the duty of the true American citizen in the expression, "A fair show for everybody." He would not excuse a man for transgressing the law because he was poor and humble, any more than he would condone unlawful acts on the part of the man who stands for a mighty corporation.

It is not easy to discuss this question without incurring the danger of accusation as a corporation defender; but the time is fast approaching when reason will have better sway, and when dissent from a popular hue raised by malcontents and demagogues will not be set down as interested pleading.

The "Sick Man" of Europe.

For many years newspaper readers have been familiar with references to the "Sick Man of Europe." Probably there has not been a very clear conception of the meaning of the term, though of course it has been taken to relate to Turkish affairs; but now there is likely to be a more definite understanding. The Turkish government totters, and being decrepit, becomes the prey to many ills, some of which may have an effect that will become far-reaching.

Owing to its geographical situation, Turkey has been able to withstand pressure and attack for many years. Its hereditary enemy, Russia, has had it in extremis more than once, but in each instance, just before the coup de grace was given, "The Powers" intervened, prevented the final disaster to the "Unspeakable Turk," and guaranteed him another lease of life. The most notable instance of such intervention was the Treaty of Berlin, which has preserved for thirty years the power of the Turk, though events have frequently occurred to threaten it.

The present crisis had its inception in the uprising of a reform party at home. This in itself is a novelty, for it has not been long that leaders of a reform party, or any party not in accord with the Sultan, have been able to retain their heads after expressing dissent. This reform party appears to be composed mainly of younger Turks who have become inoculated with the spirit of modernism, and who have developed such power that they have to be recognized. It is even rumored that the Sultan is to abdicate, and a more liberal and modern ruler take his place.

With these disturbed conditions at home, it naturally followed that dependencies, long suffering under the Turkish yoke, should become restless. Most of these States are not in religious sympathy with their suzerain; and besides, there are race antipathies, not to mention gross abuses of government.

The first of these dependencies to take action was Bulgaria. Its king has declared himself the czar of an independent country, throwing off the yoke of the Turk. Crete, the island that was set off some ten years ago by "The Powers" as a dependency of Turkey, has thrown off that yoke and taken on another, allying itself with Greece in so far as it is able to do so by its own choice; while Austria, which since the treaty of Berlin has been in nominal control of Herzegovina and Bosnia, declares them to now be real parts of the Austro-Hungarian empire. All this has greatly stirred Serbia, which is a sick man itself, but has great ambitions.

This threatened disintegration of Turkey in Europe has ramifying effects and all European nations are interested. It is well known that the fear of what might result from just such a situation has for years induced the greater European powers—England, Germany, Italy, France and Austria—to keep the breath of life in the "sick man." It appears to be impossible to longer stave off the reckoning. The outrageous misrule of Turkey over countries of

different races and religion has come to an end. The Turk is about to disappear from Europe as a power, and the realignment is the thing that is causing apprehension.

Thus it is seen what appropriateness the term "Sick Man" has to the degenerate Turkish empire. And it is also seen that the means employed to prevent the demise of the sick man are no longer so readily to be invoked. For conditions are changed with the big powers, and not only as to themselves but relatively. Some of them have all they can do to maintain a statu quo at home, and others are in relations with allies very different from those that formerly prevailed. It all results in a situation of the most ticklish character, with possibilities before stability is secured of almost any sort.

The third Presidential sideshow is now in California, and it is to be truthfully said that Hise is a more grateful figure than either of the other two. If nothing else, he has the appearance of being a hearty man, whose victuals agree with him.

One of the unwelcome prospects of the Panama canal completed is the landing of European emigrants direct at San Francisco. But perhaps before that is possible there will be national sense extant sufficient to mitigate the immigration evil.

It may occasion surprise that they object to "The Devil" at Reno, and propose to boycott a theater that has booked his appearance. Fastidiousness is reaching out into new regions.

"A plea for decency" is made by Mr. Sweeney, president of the Labor Council of San Francisco, in urging the re-election of Judge Dunne. This justifies the conclusion that iniquities may be committed in the name of decency.

ASKS ANNULMENT OF HIS MARRIAGE

James C. Dunphy Starts on New Course in Litigation With His Divorced Wife.

SAN FRANCISCO, Oct. 8.—A new move was made by James C. Dunphy yesterday in his involved litigation with Edith M. Dunphy, who secured a divorce and a \$60,000 allowance from him in Judge Graham's court. The wealthy cattle rancher has now sued to have his marriage declared null and void, repeating the allegations made several days ago in an affidavit that Mrs. Dunphy was not divorced from any of her three prior husbands at the time she married Dunphy in January, 1903. All the allegations are made "on information and belief."

FIRST MARRIAGE.

Dunphy says the defendant in 1902 at Downsville, Cal., married Oliver P. H. Sunderhouse. Some time in the following year she began divorce proceedings against Sunderhouse, but no valid judgment or decree of divorce was ever entered, Dunphy asserts. He also says that the divorce proceedings were fraudulent and collusive. Sunderhouse, who is now dead, was living at the time she married Dunphy, it is alleged.

CLAIMS IRREGULARITY.

The second marriage is stated to have taken place with W. C. Coffey in San Francisco in May, 1907. In December of the same year, it is alleged, Dunphy started an action for divorce from Coffey, but the complaint, says, no valid decree or judgment was ever made or entered in this case.

ORDERS DISTRIBUTION OF MONEY TO WIDOWS

SAN FRANCISCO, Oct. 8.—An order, signed by Judge Coffey yesterday adjudging that \$335.78 on deposit with the Union Trust company to the credit of the estate of the late Dennis T. Sullivan, the fire chief who was killed in the earthquake of April 18, 1906, is the property of Mrs. Nellie Annie Hennessy. Mrs. Margaret A. Sullivan did not contest the matter, and stated that all she wanted was an adjudication by the court authorizing her to pay the money Mrs. Hennessy is the widow of Thomas Hennessy, one of the two firemen suffocated in the fire on the transport Meade in February, 1906. A fund of \$9,370.73 was collected by popular subscription for Mrs. Hennessy and Mrs. Dakin, widow of the other fireman killed. The fund was placed in trust with Chief Sullivan, who invested \$9,000 for the benefit of the two widows, the balance being in his hands at the time of his untimely death.

TEAMSTER CHARGED WITH A PECULIATION

Henry Abneth, a teamster in the employ of Scott's Express Company, is under arrest at the city prison on a charge of misappropriation of \$35 of the company's money. According to a report made to the police by J. D. Chappell, which resulted in the man's arrest, Abneth had collected that sum, had left by train in Berkeley and disappeared. He was later located by Sergeant of Police Friel, who took him to jail pending his trial in the police court.

KENNEDY'S FRIENDS ATTEND WEDDING

With Cowbells They Help Sporting Man Keep His Marriage a Secret From All.

(Special to The Tribune.) SAN FRANCISCO, Oct. 8.—When Joe Kennedy, the well-known sporting man, and former sparring partner of the ex-champion, Jim Jeffries, journeyed out to the Mission Dolores Church on Tuesday afternoon and was quietly married to Miss Elizabeth La Pierre, a beautiful Mission belle, he thought the wedding was strictly on the quiet and that he would take a trip away and come back and surprise his friends.

The joke, however, was on him, and Deputy Sheriff Eugene Tarkin, who acted as best man, is accused of having whispered the secret which resulted in a somewhat startling succession of events.

OLD FASHIONED SERENADE.

Just as Kennedy, with his bride upon his arm, ran down the steps of the church and was about to enter the waiting carriage, they were met by a crowd, including four of the groom's chums, Harry Hutchinson, William Desmond, Timothy McCarthy and Sam Conlin. Each one of the party bore a cow bell and these seemed to be half a hundred pairs of old shoes and several sacks of rice in the company.

NOISED BY BELLS.

The four gentlemen named, as soon as Kennedy had been able to force his way into the carriage, jumped upon a backboard hitched behind two mules, and with bells and drums, proclaimed the news of the wedding throughout the Mission district by following the carriage.

It was 8 o'clock at night before the joking shout was dropped, and Kennedy, more dead than alive, was allowed to depart on his honeymoon. Meantime a wedding breakfast which had been ordered, went to waste in the banquet room of a downtown restaurant.

W. W. COOLEY TO BE GUEST AT BANQUET

The promotion of W. W. Cooley, who has for a long time been the representative of the Burroughs Adding Machine Company in this city and vicinity, to the position of San Francisco Sales Manager of the same organization, will cause the removal of Mr. Cooley from his sphere of action in this city to the other side of the bay. Mr. Cooley has extensive business and social acquaintance in Oakland and surrounding cities and these, while gratified over his deserved promotion, nevertheless regret his transference to another field. A number of these friends will meet the gentleman this evening around the social board at the St. Mark and express to him hearty feelings for continued success in his new sphere of activity.

NINETY DAYS IN JAIL.

William Telo was sentenced to ninety days in the city prison by Judge Tappan, sitting for Judge Smith, this morning on a charge of disturbing the peace. He was developed during the trial of a robbery given by Mary Stanford, a waitress, that Telo, while walking with her on the street, had become suddenly angered and had knuckled her down. He was not charged with battery for the reason that the arresting officer did not expect that the woman would appear to prosecute the case. In this he was in error, for she did appear with the result that Telo is to spend the next three months in jail.

WILL TRY TO FLY ACROSS CHANNEL

Wright Plans Entering Competition for Prizes Offered Aviator Who Wins.

LEMAN, France, Oct. 8.—Ten thousand dollars and a gold cup worth \$250 now await the first aviator who successfully crosses the English channel in an airplane of any kind heavier than air. Part of the \$10,000 is offered by the London Mail and part by a big French champagne firm. The Aerophone Society offers the cup. Now that Wilbur Wright, by carrying a passenger forty-two miles, and now and again rising to a height of just over 100 feet in flight, has finally accomplished the last of Lemaire's conditions, he says that probably he will soon try a flight over the channel by way of Dover and Calais.

Three other aeronauts, declares N. B. Holt, are ready for the same feat. One is himself; one is Santos-Dumont, who emerges from obscurity once more with a monoplane capable of anything as soon as the motor works properly, and a third is another monoplane named Maudslayi. All will begin trials within a fortnight, though it is generally conceded that none has much chance against Wright.

NECKTIES ONLY SWAG OF THE BURGLARS

Two neckties were the only articles stolen by a burglar who forced an entrance into the home of Mrs. H. A. Brackett, 545 Thirtieth street, last night. The house was ransacked from top to bottom. The fact that nothing but the ties were taken seems a mystery to the victim of the theft. An attempt was effected through the rear door by means of a false key.

DEMOCRATS TO HOLD RALLY AT ANTIOCH

ANTIOCH, Oct. 8.—John Aubrey Jones will be the principal speaker in the Democratic rally to be held here Friday evening under the auspices of the State Central Committee operating in conjunction with the county committee. George B. Beckman, candidate for congress from the third district, and the county candidate will be present.

Alfalfa Pays

The land has been prepared and we are sowing a thousand acres to alfalfa, under irrigation in Glenn county, near Willows, on main line Southern Pacific, Oregon division, which has been divided into 10 and 20-acre tracts, which we are selling on easy terms of payment to business men, mechanics, farmers, and others, who want to make a substantial investment by the monthly payment plan. Price, \$1250 for ten acres; \$15 down and \$15 per month. The crops raised on the land are credited on the buyer's contract of purchase. The alfalfa will do twice as much toward paying for the land as the buyer's monthly payments. Our next excursion goes Saturday, leaving the office at 1:30 p. m. Total expense of the trip is \$10, which we will credit on account of your contract of purchase. Alfalfa Farms Co., 403 A Grandnack Building.

DEAD WOMAN'S CLOTHES WOULD INDICATE THAT SHE MIGHT BE A PERSON OF GOOD STANDING

Mystery Deepe is About Drowned Woman

Myster envelopes the case of an unidentified, a dead body was found floating in the water about yesterday afternoon, near the Oakland mole, 1 Ruler and C. W. Holladay, who were out rowing in a small boat, which from all appearances, had been in the water about two days. The body was dressed in a black skirt, a brown silk waist, a long, expensive top coat of black cloth and black lace walking shoes. Her hat alone was missing. The undergarments are of the conventional pattern and show but little evidence of wear. She was apparently about thirty-eight years of age, weighed about 165 pounds and is five feet six inches tall.

MUST SHOW SPOT OF ALLEGED MISCONDUCT

NEW YORK, Oct. 8.—Judge Gelbach granted the application, of Frank J. Gould for an order directing his wife, Helen K. Gould, to furnish the number of the house in North Sydney, N. B., where he is charged with improper conduct. Mrs. Gould in her suit for absolute divorce charged that her husband in 1906 was guilty of improper conduct while visiting at North Sydney, and also in a house in New York City. Mrs. Gould's counsel opposed the application for more details in regard to the North Sydney incident.

The Oakland Bank of Savings

established 1867.]

Widower's Love Lost; Asks \$5000 Damages

Friendship of Pair Began at Bedside of His Dying Wife.

PHILADELPHIA—Suit for \$5000 developed between the nurse and the widower in a case of alleged seduction. The nurse, Miss Mary, who had been the nurse of the late Mrs. Jones, is charged with seducing the widower, Mr. Jones, who is now suing her for damages. The case was heard in the local court today.

Girl Director Caught in Masculine Attire

NEW YORK—A young woman, Miss Mary, who is a director of the local Y. W. C. A., was caught in masculine attire. She was seen walking down the street in a suit and tie, and was stopped by a police officer. She claimed that she was going to work, and that the attire was for a costume party. She was released after a short detention.

Brave Love

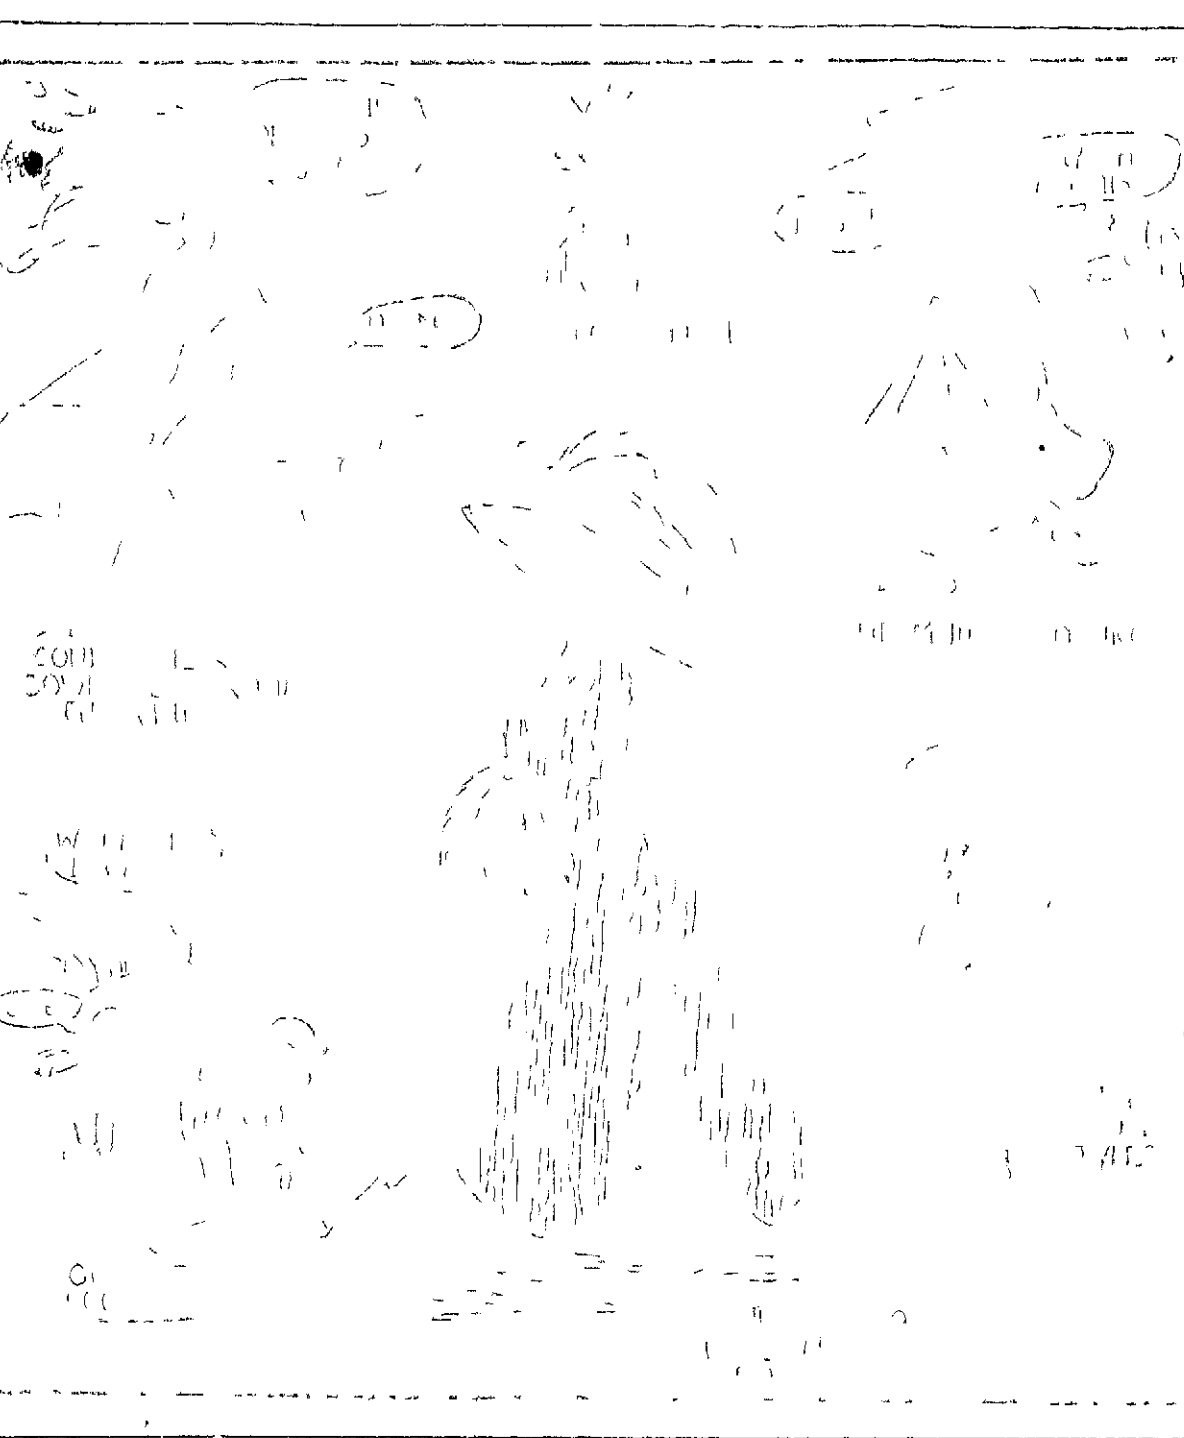

He'd nothing but his violin
And nothing but my song—
But when we were wed when skies were blue
And summer days were long
And when we rested by the hedge
The robins came and told
How they had danced to woe and win
When early spring was cold

We sometimes supped on dewberries
Out slept among the hay—
Put off the future with a day
And time out to be as play
The rain came then—the dear old
Tune—
We could not stirve for long
While my man had his violin
And I my sweet love song

The world has the gone well with us
Old man since we were one—
Our homeless wanderings down the
Lines—
It long ago was done
But then why wait for gold or gent—
For houses on the line
The youth's sweet spring grows
Brown and red
And I've and beauty fine
Will never know the joy of home
That I've without a sign
When you had but your violin
And I a song—
—Mary Kate D. has

—Mary Kate D. has
—Mary Kate D. has

WILL THE SHEATH GOWNS BE WORN THIS WINTER?

Young Beau Spanked HIS LADY LOVE WEEPS

Dream of Bliss in Rolling Chair Is Shattered by Irate Mamma.

ATLANTA, CITY—A young man, who was the object of much admiration, was spanked by his mother for a misdeed. The young man was caught in a compromising position with a young woman, and his mother, who was very strict, spanked him. The young woman was weeping and crying.

Sayings of Mrs. Solomon (Being the Confessions of the Seven Hundredth Wife)

Translated by Helen Rowland

I have three sayings of Mrs. Solomon. The first is that a woman should be as strong as a lioness. The second is that a woman should be as wise as a serpent. The third is that a woman should be as beautiful as a flower. These are the sayings of Mrs. Solomon, who was the wife of King Solomon.

Fugitive Bride, Once Taken Dragged From Husband After Dispute

May Be Taken to Court

NEW YORK—Mrs. W. A. Spoor, the wife of a wealthy man, was taken from her husband after a dispute. She was found in a hotel room, and was taken to court. The case is expected to be heard in the near future.

A PORTRAIT

By E. E. MILLER.

A classic brow of spotless white,
Dimpled cheeks where the dawn flush glows,
Soft lips as bursting poppies bright,
A dainty chin, a slender nose,
Dark curls just tinted with sunlines sheen,
Long lashes shadowing eyes serene—
This is the face of Margery.

The grace of shy, wild woodland things
In rhythmic step and gesture free,
Gay girlhoods' dream that softly clings,
Like some vague tender memory,
About the gently curving lines
Through which a woman's beauty shines—
This is the form of Margery.

The happy lore of fairy land
Knave's tales of common sense and care,
Simple reasons that woe long withstand
Strange fancies borne on vagrant airs,
Childish wonder at common things—
Wisdom deeper than learning brings—
This is the mind of Margery.

Sweet memories of years gone by,
Joy in the present's eager stress,
Calm trust, stern truth, ideals high,
Deep, all-embracing tenderness,
Youth's hue, impassioned purity,
Bright dreams of love in days to be—
This is the heart of Margery.

WOMEN'S CLOTHES IMPROVE

According to Ellen Terry, the famous actress, women's clothes have improved in the last few years. She said that she had seen many beautiful dresses in the last few years, and that she was very pleased with the improvement.

AWNING MAN IN COURT DENIES ASSERTIONS OF PRETTY MISTRESS AND HER SERVANT.

NEW YORK—A man, who was the object of much admiration, was taken to court. He was charged with seducing a young woman, and his servant. The case is expected to be heard in the near future.

ESTIMATED VALUE THINKING PARK WAS TO ADJOIN LAND

John T. Bell Admits He Figured on Proposed Improvement

The condemnation proceedings for park purposes of lands near the intersection of Fallon and Twelfth streets, claimed by John T. Bell, Adams, John Charles Adams, et al., were resumed this morning at the Superior Court before Judge Harris.

John T. Bell, the real estate man, who got a valuation (which will be found in detail in another part of this paper), declared positively that his valuation was based on the assumption that the property adjoining on the east, which is now owned by the city, was to be developed into a park. He also stated that in the event that the park in question was not laid out and beautified by the city, his valuation of the property in dispute would not be the same.

These facts were brought out in cross-examination, by City Attorney McElroy.

DIFFICULT TO GIVE.

He was asked what was the market value of 100 feet of the south line of Twelfth street and extending southerly 100 feet, and answered that it was difficult to give the value because of the depressed condition of the ground, the location of the property, and the fact that the property was not being developed into a park, which would add materially to the value of the property for business purposes. His valuation was \$100 a foot.

PARK AND VALUATION.

"If the city did not put a park where you say it did purchased ground, would your estimate be the same of the value of the ground?"

"Then, eliminating the park feature, which you had in mind, what would be your estimate of the market value of this property, which has been testified to by you in your direct examination, on the first day of November, 1907?"

This question was objected to by Chapman, and was finally withdrawn.

AS IT STOOD IN 1907.

The witness was asked if he considered, in 1907, the park as it stood in 1907, it would be when beautified, and replied that he considered it as it stood in 1907. It was the assurance that there was a park to be put there that warranted him in placing the estimate he had put on the property.

He was asked if his valuation of the property would be the same if no park should be put on the city.

LENGTHY EXAMINATION.

There was a lengthy argument by counsel on both sides, defendants' attorneys objecting to the question, the city's attorneys insisting that the question was admissible.

He said his valuation would not be the same when the court allowed the question to be answered.

VALUATION.

The remaining 844 feet on Twelfth street Bell said the market value on the 1st of November, 1907, was \$98 per foot. The property at Eleventh and Fallon streets, on the east side of Fallon street, and between Fallon and Twelfth streets was 55 per foot.

The Eleventh street frontage, the witness said, was better adapted for residences than was Twelfth street frontage.

A SOLUTION OF THE COAL QUESTION SEEMS TO BE AT HAND

INTRODUCTION OF AMERICAN BLOCK COAL FOR KITCHEN PURPOSES, COUPLED WITH BROADMINDED POLICY OF NEW FUEL COMPANY BIDS FAIR TO REVOLUTIONIZE LOCAL CONDITIONS

The women of Oakland, Berkeley and Alameda, particularly those who are doing the cooking, are watching with interest the introduction of American Block Coal, a fuel now being advocated for cooking purposes.

For a number of years it has been impossible for most housekeepers to get a coal that is clean, bright, and that the fact that this coal seems to be filling the bill in every respect is causing no small amount of interest.

"I was surprised at the way the American Block Coal I purchased from you works," said a customer this morning at the office of the American Fuel Company, 1217 Broadway. "I have been trying to get just such a coal for years and must confess that I tried your coal with some misgivings, as I could not make myself believe that all you said in its favor could be true. But I've found that all your statements have been more than accurate, for American Block Coal is everything you say it is, and by long odds the finest coal I ever used in my kitchen stove."

People who purchased two or three sacks to try, and now ordering again in ton lots, and if the demand continues to increase it will not be many months before practically every kitchen range in the county will be burning American Block.

The American Fuel Co. are unusually fair in regard to this coal. "It is fair to recommend it for furnaces or for heavy use in grates. It is primarily a kitchen coal," said one of the local managers to-day, "and although it makes a beautiful fire, and is especially a coal for his purpose, because it burns so clean and bright and has an unusually long blaze, which responds a little too readily to the touch of an open grate, and for purposes of economy of use or Chandler coal is recommended for this use."

Isn't it fair to a person takes the same pains to tell his patrons what the coal is not adapted to as well as to tell of its advantages, but the American Fuel Company are too big a concern to allow any misrepresentation and probably insist too strenuously if

DELEGATES VIEW THE HARBOR DEFENSE OF CHOKED BY TRAMP SHE HAD TRIED TO BEFRIEND

TRANS-MISSISSIPPI GO SIGHT SEEING TWO ATTORNEYS SUBSTANTIATE STORY

Resolutions Asking Congress to Aid in Building up the Merchant Marine--New Officers of the Body.

SAN FRANCISCO, Oct. 8.—(The defense had its inning in Judge Byrne's court this morning during the hearing of the case of E. A. Blake, accused of attempting to bribe juror John Martin Kelly, who was on the panel in the tramp case, and Attorney Frank J. Murphy and A. S. Newburgh corroborated in almost every detail the story told by the defendant himself yesterday.

Attorney Murphy was the first witness called after the session opened at 10:30 a. m., and told in response to questions, in a clear and convincing manner, the entire circumstances of his dealings with Blake. He said that Newburgh had introduced him to Blake and that he had gone over with the latter the list of jurors summoned in the tramp case. Blake said he knew John Martin Kelly and Murphy urged him to question the juror as to what he thought of the prosecution and whether any "buns" (bribe) men had been to call upon him.

KELLY'S STANDING.

The attorney stated that he knew all along that Kelly was not on the assessment roll. This conversation took place approximately July 31 and on August 17 Murphy learned from Blake that Kelly would vote either way for \$1000 and that he had made such a proposition to Blake. During the rest of the month of August the witness asserted he was out of the city a great part of the time and was also busy with a petition to the Governor to pardon a man whom he believed to be innocent.

He went on to state how he had reported the case to the presiding judge on September 1, and that the latter had asked him to wait until Kelly presented himself in court and then to reveal the matter to Judge Lawlor.

LANGDON CROSS-EXAMINES.

On cross-examination District Attorney Langdon was extremely anxious to know why Murphy had asked Blake to talk to Kelly when he knew the juror was not on the assessment roll. Attorney Murphy answered in part as follows:

"There had been a fake petition circulated by gangsters from San Francisco," replied Murphy, "asking the Attorney-General to suspend these prosecutions and two detectives, Schindler and Lawlor, were particularly active in this regard. I had information that they had told a man named Blecher that they would get him the trade of the Vienna Cafe if he would sign the petition, and we had brought contempt proceedings against these two agents of the prosecution, together with Burns."

"I asked you for your reason why you wanted Kelly questioned when he was not on the assessment roll," cried Langdon.

"And I have told you," returned Murphy.

OTHER WITNESSES.

The prosecutor was not satisfied, however, and Murphy explained that not being on the assessment roll was not necessarily a disqualification of a juror, and that by stipulation he might be accepted by both sides. The prosecutor went into the subject of Murphy's not having reported the affair to Judge Burton for two weeks at some length, but Murphy explained that his other interests had occupied almost his entire attention.

Attorney A. S. Newburgh followed on direct examination, corroborated both Murphy and Blake in the essential details of the episode. Both attorneys agreed absolutely that there had been any mention of money whatsoever during the transactions.

JUNK DEALER IS SEVERELY INJURED

(Special to The Tribune.)

SAN FRANCISCO, Oct. 8.—(Famed Schwartz, a junk dealer of 20 Lincoln street, was thrown from the grand of a car, and injured, when he was struck by a car at the intersection of Twenty-first street. The injured man was taken to the Emergency hospital for a badly contused back and possible internal injuries.

The witness replied that it would not be necessary to call any other witnesses.

ELL'S VALUATION.

J. T. Bell was then called. He said he had been a real estate man for a number of years, and that he had been in the Twelfth street frontage on the south line of the same street for a distance of 100 feet, or a total of \$20,000. The value of the north line of Eleventh street was \$10 per foot, or \$25,000. The value of the south line of Eleventh street was \$10 per foot, or \$25,000. The value of the north line of Twelfth street was \$10 per foot, or \$25,000. The value of the south line of Twelfth street was \$10 per foot, or \$25,000. The value of the north line of Fallon street was \$10 per foot, or \$25,000. The value of the south line of Fallon street was \$10 per foot, or \$25,000. The value of the north line of Twelfth street was \$10 per foot, or \$25,000. The value of the south line of Twelfth street was \$10 per foot, or \$25,000. The value of the north line of Fallon street was \$10 per foot, or \$25,000. The value of the south line of Fallon street was \$10 per foot, or \$25,000. The value of the north line of Twelfth street was \$10 per foot, or \$25,000. The value of the south line of Twelfth street was \$10 per foot, or \$25,000. The value of the north line of Fallon street was \$10 per foot, or \$25,000. The value of the south line of Fallon street was \$10 per foot, or \$25,000. The value of the north line of Twelfth street was \$10 per foot, or \$25,000. The value of the south line of Twelfth street was \$10 per foot, or \$25,000. The value of the north line of Fallon street was \$10 per foot, or \$25,000. The value of the south line of Fallon street was \$10 per foot, or \$25,000. The value of the north line of Twelfth street was \$10 per foot, or \$25,000. The value of the south line of Twelfth street was \$10 per foot, or \$25,000. The value of the north line of Fallon street was \$10 per foot, or \$25,000. The value of the south line of Fallon street was \$10 per foot, or \$25,000. The value of the north line of Twelfth street was \$10 per foot, or \$25,000. The value of the south line of Twelfth street was \$10 per foot, or \$25,000. The value of the north line of Fallon street was \$10 per foot, or \$25,000. The value of the south line of Fallon street was \$10 per foot, or \$25,000. The value of the north line of Twelfth street was \$10 per foot, or \$25,000. The value of the south line of Twelfth street was \$10 per foot, or \$25,000. The value of the north line of Fallon street was \$10 per foot, or \$25,000. The value of the south line of Fallon street was \$10 per foot, or \$25,000. The value of the north line of Twelfth street was \$10 per foot, or \$25,000. The value of the south line of Twelfth street was \$10 per foot, or \$25,000. DETROIT ADOPTS THE PACKARD FIRE WAGON

New Machine So Successful Others Are to Be Added

By Elizabeth Gregg.

The Detroit fire department has inaugurated a motor car system which is not only a great departure from ordinary fire department practice, but which promises increased efficiency, that the chiefs of all the large cities in the country are closely watching this new service.

The new vehicle is a Packard "Thirty" touring car chassis converted into a fire wagon with a special body and equipment, making it suitable for carrying a squad of firemen about town with the speed of the fastest touring motor car. The truck is now loaded at one of the fire stations, but will eventually have a separate house built for it. It has its own organization of fifteen picked men, including captain and lieutenant, forming what is known as the "After Squad." This comprises the company No. 30, the purpose of which is to enforce any regular company in the city in time of need.

The fire fighting forces of Detroit have been in need of reinforcement for some time. Last winter the legislature passed an act authorizing the increase of each company from eleven to fifteen men, meaning an addition of 150 men to the entire department, at an annual increased expense of about \$150,000, exclusive of the cost of furnishing means for the housing and transportation of these extra men to and from the city. A considerable study of the proposition, the fire commissioners decided to use motor cars and a small number of men instead of a large number of men employed in the usual way. Fire Commissioner Williams V. Moore was especially confident that the utilization of the greater speed of motor cars and their consequent ability to cover large areas quickly would make it possible to provide a more efficient service in this way at a much less annual cost.

The chassis of the fire engine is practically standard with the exception that it has heavier springs than the touring car. In order to take care of the additional load, the twelve men are carried two on the front seat six on the lengthwise seats of the top and two on the rear running board and one on each side, running board. Special handles are provided for the men on the running boards. Provision is also made for carrying three hand fire extinguishers, one having a three-gallon chemical on each side and a six-gallon chemical in the rear compartment. The tool box and battery box which in the touring car are carried on the running boards are under the front of the rear seat. The running boards are made of even mesh steel so that snow and mud will not easily adhere to them. All of the special railing and handles are of brass and the entire car is equipped with straps on which twelve helmets may be hung. The space under the rear seat is open storage for boots and coats. A man of the eleven at each station only four men in each company, available for actual work at a fire during nine hours out of twenty-four. Fire department No. 30 by means of the Packard wagon can immediately reinforce any of the depleted companies by twelve men. Fire Commissioner Moore is very enthusiastic over the work of the new wagon and says that the motor car will eventually revolutionize fire department practice. He points out the fact that it will not only be used for carrying men quickly from one part of the city to another, but that it can also be used for a great many purposes which are not accomplished by the regular fire apparatus such as the fire engine, hose carts and hook and ladder trucks.

It has practically been decided that this first automobile fire wagon in Detroit soon will be supplemented by four or five others.

Keystone Garage

changers and is now in a position to do first class repairing on both gasoline and steam cars, having the best machine in the State. Absolute guarantee goes with all work. New and second hand cars for sale. Seven passenger cars for rent at all times.

First class garage service with courteous employees always in attendance. Cars stored and attended to at reasonable rates. Keystone Motor Car Co. 222 and Telegraph Ave., L. L. Gummison, manager. Formerly, Keystone machinist, The White Co., San Francisco.

SHANKS AND LELAND WILL GO AFTER THE LOS ANGELES RECORD.

Charles B. Shanks, Sales Manager for the Stearns Company of Cleveland, and Frank Leland, the Well-Known Driver, in the 1908 Stearns Roadster, With Which They Will Try to Lower the San Francisco-Los Angeles Record in the Near Future. Leland at the Wheel.

The event of the week in automobile circles is the arrival of Charles B. Shanks, general sales manager of the Stearns Company of Cleveland, and Frank Leland, a driver who has made several Los Angeles circuits in a Stearns. They are out from Cleveland with the exception of the district between Orem and Sparks, which is a Stearns route. This car is identical with the one which Shanks and Leland will use to attempt the San Francisco-Los Angeles record, now held by a White Stearns, a record of 11 hours and 15 minutes.

The Invention that has Startled the Whole World

Public Exhibition at 1056 Broadway

Come and see this wonderful electrical invention—see it transmit messages. See also the signed statements of eyewitnesses to demonstrations of the Burlingame Telegraphing Typewriter, among them the following:

U. S. Government
Exports
Telegraph Experts
Telephone Experts
Electrical Engineers
University Professors
U. S. Army and
Navy Officers
State Officials
City Electricians
Electrical Experts
employed by large
stockholders in
the Burlingame
Telegraphing
Typewriter Co. to
examine and re-
port on the inven-
tion.

No court in the land would discount the testimony of witnesses like these experts who have furnished signed statements expressing their opinions.

Can you afford to shut your eyes and close your mind against what they say?

The Burlingame Telegraphing Typewriter

The field for the Burlingame Telegraphing Typewriter is beyond the conception of man. The number of machines that will be required, the future success of the Company, the amount its shares will be worth, the money its original investors will make, he divides that will be paid, cannot be calculated.

Come and see this wonderful machine
